Water Safety Series

By Mukkesh Abbasi and Beverley Wheat

The *Water Safety Series* is a collection of readers with accompanying student workbooks. This series addresses important water safety messages which are pertinent to life in Australia. As water activities are a large part of Australian culture, particularly throughout the warmer months, it is important to ensure that children and adults from all cultures are aware of water safety issues.

Designed for beginner-level learners, these readers contain simple sentences telling a short story with beautiful colour illustrations on water safety. Keywords are highlighted in bold with their meanings depicted by illustrations in the glossary.

Each accompanying *Student Workbook* further expands on the vocabulary, grammar and safety messages learnt in the reader. Activities in the workbooks develop comprehension, speaking, listening and writing skills, and reiterate grammar and the vocabulary introduced in the readers. Each workbook also contains important water safety rules, flashcards and a picture glossary.
