Introduction to Photoshop for Architecture and Design

HELLO THERE, OUR DREAM IS TO HELP YOU MAKE GREAT HAPPEN

Present like a professional
With this introduction to Photoshop you will learn how to import and manipulate 2D graphic content to produce stunning, unique visual presentations for your office, home, assignments or career. You will be instructed on how to set up new projects, use a range of Photoshop tools and implement some efficient workflows and techniques to create graphic art in a digital format.

Whether you're a student trying to upskill for university or other study or a seasoned professional wanting to add value to your practice and client presentations, this course will help you gain
